- ✓ For periodically light to moderate incontinence following childbirth
- ✓ For healthy skin and optimum comfort
- ✓ Top-Dry-System to protect the skin
- ✓ Anatomically shaped for better fit
- ✓ Leakage barriers for extra protection

Product Description

The ABENA Maternity pad is our premium range of anatomically shaped pads for periodically light to moderate incontinence following childbirth. The products features the Top-Dry system for optimum comfort and skin integrity. The breathable and anatomically shaped pads maintain the skin healthy and offer an excellent fit. All products are fitted with leakage barriers for extra protection and the odour system minimizes unpleasant smells. The dermatological tested products features the Nordic Eco Label and are made from FSC certified materials.

Nordic Swan Ecolabel is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to www.fsc.org.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

The Dermatologically Tested symbol guarantees that products have been tested for potential skin irritations by an independent third-party laboratory.

The product does not contain latex.

The product is equipped with barriers to prevent leakage.

ABENA's incontinence products are designed and engineered to ensure minimal odor arises from the product. Odor control is a critical factor in ensuring discreteness for the user.

Unique Top-Dry system that provides a rapid absorption and a dry surface even after repeated urination.

The product is fully breathable making it more comfortable for a longer period of time, maintaining skin integrity.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.
